Live & Learn

Family Education Series with Dementia Consultant

Robin Andrews Smith

LIVE & LEARN is a monthly educational forum to discuss your changing experiences of living with dementia. Participants watch a 10-minute video topic presentation followed by group discussion and a 30-minute Q & A to address personal fears or frustrations.

Research shows persons with dementia benefit tremendously from skilled and knowledgeable family care partners (i.e., spouses, children, friends, or other family providing care or support).

This goal of each group is to support you in acquiring the confidence you need to advocate for your loved ones needs and maintain a positive, loving, and connected relationship.

Orchard Tucker 6:00 – 7:30 pm

Robin believes experiential education is the key to raising awareness and changing personal fears and stigmas associated with dementia. She has worked in behavioral healthcare for 20+ years. Her educational partner, Ceresti Health, integrates behavioral science into support for families living with dementia.
